## **DETAILED ACTION**

### ***Information Disclosure Statement***

1. The information disclosure statement (IDS) submitted on 6/27/2003 has been considered.

### ***Specification***

2. The specification is objected to because of the following informalities: On page 3, line 3 of the specification the applicant lists prior art as US Patent No. 5,084,409. The examiner has assumed that the applicant intended to cite US Patent No. 5,048,409 which is found in the Information Disclosure Statement. Appropriate correction is required.

### ***Claim Objections***

3. Claim 1 is objected to because of the following informalities: Applicant states "...during the movement of the gantry over the work table surface when crossing the space between work table surfaces." Examiner suggests amending to say --...during the movement of the gantry over the work table surface *and* when crossing the space between work table surfaces.-- Appropriate correction is required.

### ***Allowable Subject Matter***

4. Claims 1, 3, 5, and 7 would be allowable if rewritten or amended to overcome the objection(s) of claim 1 set forth in this Office action.

Art Unit: 3726

5. The following is a statement of reasons for the indication of allowable subject matter: Claims 1-10 are allowable because although the teachings of prior art indicate that it is known to use a roller gantry press to attach the fastening plates to a truss on a table, the prior art does not explicitly teach or suggest using a roller gantry press with a continuous belt drive that engages the work table and provides support to traverse the space between work table surfaces, as claimed.
